

## THIRD REVIEW – Section 5

- By 50,000 B.C.E. there were only two hominid species living in the Fertile Crescent, (Middle/Near East) *Cro-Magnons* and *Neanderthals*.
- There was an inexplicable Evolutionary jump around 40,000 B.C.E.
- 40,000 B.C.E is credited with the start of the Human Race.
- *Root-race* 3 began emerging around 41,040 B.C.E., 1,040 years before the gigantic “leap”
- Conventional thinking is that the hominids on Earth 40,000 years ago were “primitive savages” Yet Higher Reason reveals that at this time, the Life Principle has evolved into the highest material and intellectual form it can.
- Our hypothesis posited that there are Seven Globes of Earth, in which seven *Root-races* and seven *sub-races* of humans are required to evolve on.
- Essentially Evolution is multidimensional occurring on seven Globes.
- The Life-principle evolves over vast amounts of time, experiencing the consciousness of the mineral, vegetable, and animal kingdoms on the first two Globes of A and B, before reaching the human kingdom, with its seven *sub-races* within seven *Root-races* on Globe C.
- Our Earth, is mystically called Globe D.
- At the start of the Common Era, we are at a turning point because Globe D is the mid-point of a *Globe Round* of Seven Globes.
- Humans transform into super-humans on Globe D before transferring to Globe E.
- On each Globe from E to G, the former humans evolve closer and closer to the spiritual realm, which is reflected in the Bible Scripture “Ye are gods”, meaning we are divine beings infused with a divine spark or our Spirit.
- All Life contains the divine spark and therefore the purpose of Life is to “liberate” it from matter. As this process is mental, it cannot happen until we develop higher consciousness.
- Helena Petrova Blavatsky’s *Secret Doctrine*, has each round of seven Globes is part of a longer Planetary Chain consisting of Seven *Globe Rounds*.
- The Life-principle experiences various stages of development on 49 Globes before returning to Spirit.
- Today, we are in the fourth *Globe Round* on the fourth Globe or Globe D, meaning that three rounds of seven Earths have already occurred where the Life-principle, divine spark or Spirit has evolved through mineral, vegetable, animal, human, superhuman-etc. in its goal to develop consciousness.
- All Globes are within each other, meaning that we are evolving inwardly, and because of Fractals and the Mandelbrot Set, we know this space is not empty.
- Accepting that the 49 Globes are not literally within the magma of our planet, this dimension is a huge sphere with 49 circles within it representing the seven Globes or ‘Earths’ in the seven *Globe Rounds*.
- The three previous *Globe Rounds* would have taken longer to complete, since they were larger, indicating that passing through these 49 circles takes a phenomenal amount of time.
- As we move inward from larger to smaller, the duration that each circle represents gets shorter but it is still an eternity compared to the way we mark time.

- Our universe is between 14 and 16 billion years old, depending on the expert, so, we cannot be referring to just the life of our present universe.
- The seven *sub-races* of the *Root-races* can be seen as covering major benchmarks in human development.
- The first sub-race of *Root-race* 1 first appeared in what paleontologists call the Lower Paleolithic, roughly 3 million years ago, and were designated as *Homo Habilis* for their ability to make tools, spiritually speaking, they were the first step from animal to human consciousness.
- The subsequent six *sub-races* would cover their consciousness development, from simple cave dwellers to herdsman and shepherds forming the first communal living. *Root-race* 2 would cover the development of modern humans or *Homo Sapiens* through the Pleistocene era or Ice Age from approximately 300,000 years ago to our modern Holocene era, which began around eleven and a half thousand years ago. During that time, the other major humanoid species Neanderthals became extinct, leaving the world to be populated by modern humans, or in spiritual evolution terms *Root-race* 3.
- It is during *Root-race* 3's seven *sub-races* that we see the development of the various races and ethnicities around the world as tribal communities, which each soul experiences.
- During the seven *sub-races* of *Root-race* 3 the concept of religion develops.
- Each soul experiences tribal communities as male and female, as well as hierarchical positions, such as chief, matriarch, and lowly member.
- In *Root-race* 4, also known as the Atlantean Race we see the development of cities and civilizations for the soul to experience.
- Throughout *Root-races* 1,2,3, and 4, humans are operating from their subconscious.
- The self-conscious develops around 3,000 B.C.E., which coincides with the development of *Root-race* 5.
- During the fourth *sub-race* of *Root-race* 5 human consciousness transfers to Globe D.
- Over the next 2,000 years humans complete all seven *sub-races* within the fifth, sixth and seventh *Root-races*, experiencing every ethnicity, gender, culture, religion, and circumstance possible to fully develop a cognizant understanding of our connection.
- Despite the wars, conflict, and racial prejudices plaguing the world for thousands of years, at our core we are all the same.”
- The “*Watcher’s mistake*” involved Angels teaching humans knowledge they were unprepared for, causing them to be suddenly thrust forward in an unbalanced existence. Resulting in Humanity being infused with the counterfeit spirit, which was known as the lower ego.
- The emotions or DNA of Sophia’s contaminated essence was in the 4 elements of the universe.
- The Spirit of Wisdom is hidden within the Life principle, encased within the soul.
- The substance that needs redemption is made up of Sophia’s emotions.
- Humanity has the capacity to create through their imagination, which in conjunction with their emotions and intent co-creates this reality.
- The Lemurian genetic manipulation affected the entire Soul Plane.
- When the Lemurians interfered with the Human Race, the Creator/Demiurge reduced the life span and created the Wheel of Necessity or the Law of Karma. In addition, to shield the upper levels from Humanity’s depraved thoughts and to facilitate the purification of the

Divine sparks, He divided the Astral Plane, and decided to send a chosen soul, a messiah to help the Human Race.

- The messiah who was to sacrifice his life was born as the man Jesus.
- The sacrifice was required because in the role of the creator of the Law, the Creator/Demiurge could not absolve the Law of Karma. Although the law was there to assist Humanity, because of the aspect of an eye for an eye or retaliation, it became a vicious cycle.
- After the genetic manipulation, the thoughts and emotions took form and became the World Soul. As the ages past, the World Soul became infused with more of the developing Human Race's thoughts and emotions.
- The “fall” occurred because the Lemurian genetic manipulation caused the separation of the masculine and feminine consciousness within the Life Principle.
- Eve being taken from Adam is an allegory for the separation.
- The doctrine of original sin, was an allegory for the insertion of the counterfeit spirit.
- The doctrine of original sin's message was that all human beings inherited something opposed to God.
- Cloning and separating the Human Race created an imbalance in the human soul, and an unstable condition to the conscious development of the human being.
- Genesis seems to imply that Cain is different from Abel.
- Is Abel (the shepherd) a metaphor for the non-genetically altered members of *Root-race 3*?
- Is Cain “the tiller of the ground” that killed his brother a metaphor for *Root-race 4*, which replaced *Root-race 3*?
- Agriculture “tilling of the ground” did not emerge until around 10,000 B.C.E.
- The Atlanteans were *Root-race 4*.
- The Atlanteans produced civilizations of a purely material character.
- The Atlanteans were unspiritual, with strong material instincts.
- Many Atlanteans worshipped the dark and evil powers of nature, and misused their innate psychic powers for selfish ends.
- Members of *Root-race 4* are the descendants of Cain.
- Antarctica was “discovered” in 1818.
- Antarctica was accurately mapped below the ice by seismic profile in 1949.
- Ancient maps from 1137 to 1513 C.E., depict accurate coastline of Antarctica devoid of ice.
- The Earth’s crust displacement theory is that ice builds up at the poles until it becomes so heavy, that the Earth’s crust slips on its sea of molten magma.
- The Piri Reis Map places the Antarctica thousands of miles north of the current location.
- Emotions connect an individual to the Astral or psychic realm.
- *Root-race 4* absorbed the Element Water, which represents the emotion of Fear.
- Atlanteans were engaged in black magic.
- The Atlanteans had discovered the lower psychic powers.
- The lower psychic powers come from the solar plexus and are instinctive, not intuitive.
- The Atlanteans had discovered the occult power of sound.
- Atlantis was destroyed approximately between 11,000 and 10,500 B.C.E.
- According to Plato Atlantis sunk in just 1 night.

- The Atlanteans attempted to harness the power of storms through the lower psychic powers.
- The Atlanteans could tap into the Astral or Emotional Plane and gain access to immense power.
- In Greek myth a Noah-like character called *Deucalion* was involved in a global flood.
- The Christ and Sophia could not assist Humanity until 10,500 B.C.E., because they were waiting for the Life Principle to develop emotions.
- The Planet Neptune is the Archetype for The Christ in the Mystical Art of Astrology
- Card 12 The Hanged Man is the Archetype for The Christ in the Mystical Art of Archetypal images of the Tarot.
- The Tree of Life is divided into four planes.
- Level 3, *Yetzirah* in The Kabbalistic Tree of Life represents the (Formative world).
- *Yetzirah* is assigned to the Water element; it is also the Astral and Emotional Plane.
- Card 12 The Hanged Man represents Self Sacrifice, and there is no greater example of that than Jesus' Self Sacrifice on the cross.
- The Hanged Man has the Hebrew Mother letter *Mem* מ, and represents the element Water.
- The Planet Neptune is the higher octave of Venus.
- Beneath the Veil Sophia was identified with Venus.
- The Direction designated to The Hanged Man is East to West.
- The Direction East to West appears in the center of the Cube of Space.
- Only the Life Principle of the Solar system contains the Divine sparks.
- It wasn't the sinking of Atlantis that “*facilitated the entry*” of The Christ and Sophia into this plane, it was The Creator/Demiurge's declaration after the flood.
- Card 20 The World's features are very similar to card, 10 The Wheel of Fortune.
- The pyramid texts' say that it was the god Osiris, as the king of Thebes that first united the two parts of Egypt in around 4200 BC.
- Thoth is a key player in the Myth of Osiris and Isis.
- Thoth is recognized by several names; including Enoch and Hermes.
- Enoch walking with God and not dying identifies Enoch/Thoth as more than human.
- The Christ and Sophia incarnated as the god-king and goddess Osiris and Isis.

- The Legend of Osiris was central to the ancient Egyptian state religion.
- For the sake of balance, both sides or active and passive duality have to be represented.
- As the ages past, the World Soul became infused with more of the developing Human Race's thoughts and emotions.
- The World Soul gained consciousness around 4,200 B.C.E. and incarnated as Set, the twin brother of Osiris.

- The myth of Osiris and Isis is another version of the Gnostic “myth” of Sophia and Christ’s entry into this plane.
- Christ and Sophia incarnating as Osiris and Isis concerns the first level of Sophia’s redemption.
- Sophia had to be rescued 3 times.
- The Christ rescued Sophia, separating her passions and ignorance from her spiritual essence.
- The Christ as Logos needed to redeem Achamoth, the lower aspect of Sophia...”
- Mary Magdalene as Sophia was rescued by Christ Jesus.
- As Sophia moved through the lower planes, she became associated with the Planet Venus.
- The Planet Venus is dual; representing both the Mother and the maiden.
- The Christ joining with Sophia is represented by Neptune as the higher octave of Venus.
- Those parts that were separated from Sophia became Achamoth.
- Sophia as Venus and Achamoth is mirrored by the Planet Venus being both the morning and evening star.
- Sophia’s “1st redemption” occurred at the creation of the Universe.
- Sophia’s “2nd redemption” came with The Christ and Sophia’s incarnation as Osiris and Isis around 4,200 B.C.E.
- The Christ as The Logos taught Osiris and Isis how to overcome the “*Watcher’s mistake*.”
- Before The Christ and Sophia incarnated, they assisted Thoth in rescuing a remnant of the *Root-race* 4 or the Atlanteans.
- Enoch was called as a teacher or guide for Christ and Sophia (Osiris and Isis) to teach them how to overcome the “watchers” mistake.
- After Enoch ascended to The Creator he remained in the Astral Plane until after the flood.
- The Christ and Sophia went into the world as the teachers of the Wisdom Religion.
- The Christ and Sophia as the Serpents of Wisdom primarily taught the 4th Root-race.
- *Root-race* 4 emerged from *Root-race* 2.
- In 4,200 B.C.E. there were still remnants of *Root-race* 3.
- *Root-races* 3 and 4 were among the Atlanteans.
- After Atlantis was sunk the survivors fled to Egypt, North and South America and India.
- Egypt, North and South America and India report a Christ-like teacher of antiquity.
- After 4,200 B.C.E Osiris appeared as the Viracochas, Quetzalcoatl and Krishna.
- The first time Sophia and The Christ took physical form it wasn’t as mortal humans.
- Osiris and Isis were not of this Earth, they were from a higher plane.
- Esoterically speaking Osiris and Isis were from the Supernals of the Atziluth or Archetypal Plane in the Kabbalistic Tree of Life.
- Gene Roddenberry’s *Star Trek* series explains why the UFOs visiting Earth have not landed in a public place or tried to contact our “leaders”.
- The “Prime Directive” in *Star Trek* is no species that is not technologically advanced, be contacted by a more technologically “advanced” species.
- The “Prime Directive” in *Star Trek* mirrors the Divine Powers belief that all species should develop naturally on their own, without interference.

- The Watchers that “reveal the mysteries to mankind, could be viewed as an advanced civilization disobeying the “Prime Directive” and teaching a primitive or technically undeveloped society scientific advances.
- The dropping of the atom bombs on Hiroshima and Nagasaki rocked the Spiritual planes.
- Cave paintings contain strange round objects floating in the sky that appear out of place.
- Renaissance paintings contain pictures of UFOs with individuals gazing up at them.
- The concept of flying in the Renaissance was consigned to only “demons” and witches.
- UFOs appearing in Renaissance paintings suggests that someone has been keeping an “eye” on the Human Race for some time.
- Since WWII, sightings of UFOs have escalated into the thousands.
- The 1st UFO sightings after WWII seemed to be concentrated around New Mexico.
- When the Creator/Demiurge discovered what the “Watchers” had done, He put in place measures to prevent any further interference.
- The Reason so many people have seen UFOs in the last 70 years is because of the bombing of Hiroshima and Nagasaki the safeguards were nullified.
- Dropping the bombs on Hiroshima and Nagasaki reversed Creation while taking Life.
- The Big Bang theory says the Universe began in a massive explosion from a singularity.
- Energy became matter creating the material universe, which brought forth Life.
- The Big Bang is reflected in the allegory of Eve (Life) coming from Adam (Matter).
- A Nuclear bomb is the exact reverse of Creation; taking uranium or plutonium (matter) and creating energy.
- By taking Life, Humanity in effect reversed Creation and broke the structure of reality.
- The entire Universe on every level was affected.
- The first testing of an atom bomb took place in New Mexico.
- The plane (Enola Gay) that dropped the bomb on Hiroshima was stationed at Roswell, New Mexico.
- Most of the early UFO sightings were around Air Force bases that had B52 bombers
- Many pilots of B52 bombers reported UFOs shadowing them in the 50’s.
- In the Middle Ages people reported being visited by a succubus.
- A succubus is a demon who takes the form of a beautiful woman to seduce men in dreams to have sexual intercourse.
- The male counterpart to the succubus is the incubus
- Succubi and Incubi are plural for succubus and incubus.
- Succubi would collect semen from the men they slept with, which incubi would then use to impregnate women.
- Another name for the buddhi or sixth chakra is the 3rd Eye and psychic body.
- The 3rd Eye and psychic body is where dreams and visions come from.
- Abductees report lost time.
- Abductees report invasive medical procedures.
- Abductees report being given information telepathically.
- Abductees are returned to Earth.
- Telepathy describes the purported transfer of information on thoughts or feelings between individuals by means other than the five classical senses.

- The term Telepathy was coined in 1882 by the classical scholar Fredric W. H. Myers, a founder of the Society for Psychical Research.
- Telepathy was to replace the earlier expression *thought-transference*.
- A person who is able to make use of telepathy is said to be able to read the minds of others.
- The human mind interprets visions and dreams in ways it can make sense of.
- The Human being consists of three souls, animal, human and Spiritual.
- It is the Spiritual Soul that is the reason the entire Soul Plane was affected after the Lemurian genetic manipulation.
- The Spiritual soul is associated to the 6th or *buddhi* chakra.
- The sixth or *buddhi* chakra is linked to the psychic body, which is connected to the Astral Plane. The Spiritual soul was how the Soul Plane was exposed to the thoughts and emotions of the Human Race, which resulted in the angelic realm being exposed to human emotions.
- Gautama Buddha taught suffering releases the soul from the cycle of reincarnation.
- Gautama's statement on suffering was thought to mean that life on Earth was meant to be painful. As only when a soul had learned all the lessons of life could an individual cease incarnating and experience Nirvana.
- The Life Principle of the Solar system was chosen to redeem the Divine sparks.
- Redemption is achieved through the Life Principle, by Humanity transmuting emotions.
- It isn't the suffering that releases the Spirit or Divine sparks, but the emotions the suffering generates.
- Whenever a person transmutes their emotions, they help change the world and bring paradise or Nirvana/Heaven to Earth.
- *Root-race* 3 equated to the *Linga Sharira* or Astral body.
- The Atlanteans brought in the principle *Kama Rupa* or Animal Soul.
- The esoteric name for the Astral Plane is *Kama Loka*.
- Through the Animal Soul, *Root-race* 4 could interact with the Astral Plane.
- The shafts in the Great Pyramid were there to inform *Root-race* 5 of the ability to access the higher Spiritual powers.
- The development of the *Manas* or the Human Soul occurred during *Root-race* 5.
- In the Tarot, the fifth principle is the first stage of the Higher Self.
- Sects teaching that we can translate our bodies into another dimension are steering Humanity down the wrong path.
- Only when we lose all sense of separateness can we progress Spiritually.
- In Greg Braden's *Awakening to Zero Point: the Collective Initiation* the Human Race is going to experience a "shift" in consciousness en masse.
- The Earth's vibration and ours is speeding up, from around 7.8 in 1987 to 8.6 in 1994.
- The Planet's magnetic fields are continually drifting.
- It takes around 2000 years for the Planet's magnetic field to complete a full circuit of the Earth.
- Although UFO sightings often coincide with the appearance of a Crop Circle, there is no documentation of a UFO creating one.
- The connection of patterns in history to Fractals is a far from novel concept.
- Fractal geometry was used in everything from architecture to tapestries.
- A fractal is a rough or fragmented geometric shape that can be subdivided into parts, each of which is a reduced size copy of the whole.

- Fractals are an important part of the chaos theory.
- Benoit Mandelbrot coined the word “fractal” from the Latin adjective “fractus” and corresponding verb “frangere” meaning to break or to create irregular fragments.
- The Koch Snowflake, Julia Set, Mandelbrot Set, as well as clouds, mountains, coast lines, and all other shapes that do not correspond to geometric shapes are related to the chaos theory.
- There is still no consensus on how or who is creating the Crop Circles.
- One hypothesis is that crop circles are the imprints of the consciousness of our ancestors.
- The creators of the Crop Circles are from inner space.
